

To Whom It May Concern: I am writing in reference to K-Love radio. A little over a year ago, K-Love radio came to my local listening area. Our family was so excited because we do not have any other radio station like it in our area. They not only air the kind of music we like to listen to but they are very community minded. This past summer, our community sponsored a music festival and K-Love did an awesome job of helping to promote the festival on their radio station. I know many people who listen to K-Love every day and if it was displaced by an LPFM broadcaster it would create a huge void for the listening audience in our area.

Thank you for considering my comments about this situation.
